- Have not had a clean accreditation period since 1982
- Placed on probation twice (1990, 1992)
- 3 Focused Visits (1990, 1991, 1999)
- Have reported continuously on shared governance, assessment and/or planning since 1999

# Triton's Accreditation History

If you want a different result, you  
must do things differently ...

As a campus community, we must approach our  
assurance argument differently and we must  
approach our visit differently

# Triton's Accreditation History

- **Historically**, we have:
  - Prepared self-studies that lacked genuine campus buy-in
  - Waited until the arrival of the HLC team to discuss our challenges
  - Asked HLC visitors to solve our problems for us
- **This time**, we want to:
  - Prepare a report that the college community supports
  - Discuss our challenges now and address them in the report
  - Come up with our own solutions
    - *We are better suited to solve our problems.*

# Next Step: Develop our Assurance Argument

- We are seeking campus-wide input regarding our strengths and weaknesses related to HLC's Criteria
  - Point Person: Pamela Perry, Director of Planning and Accreditation
  - How: Opportunities for written feedback or in-person dialogue
  - Where: Academic Senate, Committee Meetings, Chairs and Coordinators meetings, Triton Today, College Council Rep communications, forums open to campus community
    - *Ideas for other venues? Pamela wants to hear them!*

# Triton's Accreditation History

We need your voice.

The time to lay the groundwork for a successful visit is now.
